

2026 PROPANE VEHICLE RULES & REGULATIONS

WHO AND WHAT IS ELIGIBLE?

Eligible entities include:

1. Public and Private fleets utilizing propane vehicles/fleets, purchasing a new propane vehicle(s) for the first time.
2. Public and Private fleets utilizing propane vehicles/fleets, completing a propane vehicle conversion for the first time.
3. Propane customers, propane companies, and their employees who reside in Ohio.

WHAT VEHICLES ARE ELIGIBLE?

All propane vehicles and conversion systems must be approved by U.S. EPA. Eligible vehicles qualify for \$4,000 per vehicle/conversion. Rebates are limited to 4 vehicles per year (up to \$16,000), per entity/company.

- New OEM propane vehicles.
- New propane conversion vehicles (current model year or previous model year with less than 15,000 miles.)

All federal and state incentives must be applied prior to receiving rebate funds, and the funds may be used for the incremental cost of propane. These rebate funds should be considered “matching funds” when applying for other grants or funding in conjunction with this rebate. There is a limit of 4 rebates issued to any single entity.

WHAT DO I HAVE TO DO IN EXCHANGE FOR THE REBATE FUNDS?

An initial survey and final survey completed electronically are required for each vehicle receiving an incentive. The rebate recipient also agrees to maintain and submit a report of miles driven for vehicles; gallons of propane used; and anecdotal performance characteristics that will be submitted electronically a year from the time the rebate is received. The data collected will be used to produce a document which will assist the propane industry and vehicle manufacturers with necessary data needed to evaluate vehicle performance on propane vs. gasoline, to make improvements to the vehicles and to sell the use of propane as an alternative motor fuel. 50% of the incentive will be paid after the application is submitted and the initial survey is completed. The second 50% of the incentive will be paid after the final survey is completed and the data report is completed.

WHEN DOES THE PROGRAM BEGIN AND END?

- The propane vehicle rebate program ends December 31, 2026.
- **Priority rebate awards will go to entities new to propane - purchasing new, converting new for the first time.**
- Funds are awarded on a first-come, first-serve basis.
- The payment of a rebate under the program or this agreement is subject to available funds.
- If available funds run out during the program year, OPGA may elect to carry over applications until the next program year.
- All eligible purchases must occur during the rebate program.

Completed and approved applications should have a rebate check issued within 60-90 days after the application is received at the OPGA office, subject to available funds. No applicant has a legal right or other entitlement to receive rebates under the program or this agreement. A completed application does not bind OPGA to approve or pay a rebate to any applicant.

An applicant or propane supplier/marketer may be suspended from, or declared ineligible to participate in the rebate program if the OPGA determines that the applicant or propane supplier/marketer has submitted false information or otherwise violated program terms and conditions. Within 30 days after OPGA suspends or declares an applicant or propane supplier/marketer ineligible, the applicant or propane supplier/marketer may appeal the action by submitting the appeal in writing to OPGA. Actions taken by OPGA with respect to the appeal will be final. An applicant or propane supplier/marketer who submits false information pertinent to a rebate is subject to criminal and civil penalties including U.S. Mail fraud.

2026 PROPANE VEHICLE REBATE APPLICATION

\$4,000 | UP TO \$16,000

Submit this completed form with the required documentation to the Ohio Propane Gas Association (OPGA) at the address at the bottom of this page. Rebates limited to 4 vehicles/year, per entity/company. To apply for this rebate:

1. Applicant and the applicant's propane supplier/marketer must sign the application;
2. Attach the paid invoice for the vehicle or retrofit system; and
3. Keep a copy of the completed application and all necessary documentation for your records.

Rebate Preapproval No.
